Introduction

Taco Cat Goat Cheese Pizza!
Keep this crazy string of words in mind. As soon as there is a match between a card and a spoken word, race to slap your hand on the central pile of cards. The last person to do so must take them all! Be quick to get rid of all your cards, but watch out! Your mind will play tricks on you. This addictive game is as unique as its name!

Object of the Game

To win the game, get rid of all your cards and be the FIRST to slap your hand on the central pile of cards when there is a match or after a special card action.

Set up

Shuffle and then evenly distribute cards, face down, to all players.

- For a 2, 3, 4 or 5 player game, each player is dealt 12 cards.
- For a 6 player game, each player is dealt 10 cards.
- For a 7 or 8 player game, each player is dealt 8 cards.

Extra cards are returned to the box.

Players do not look at their cards and place them in a pile in front of them, face down. This pile is their individual pile.

How to play

The dealer is the first player for the first round.

The game is played in successive rounds.

The first player takes the first card from their pile and places it face up in the center of the table, saying "*Taco*".

Play continues clockwise, with the next player placing their card face up on top

of the previous card,
saying " Cat".

Matches

Play continues in this way, with the words "Taco", "Cat", "Goat", "Cheese", "Pizza", "Taco", "Cat", "Goat", "Cheese", "Pizza"... being said **in order** until the card that has just been played matches the spoken word.

*For example:
a player puts
down a Pizza
card while
saying "Pizza".*

At this point, all the players must slap one of their hands on top of the central pile as quickly as possible. The last player to slap takes the entire central pile and puts the cards face down at the bottom of their individual pile. This player becomes the first player for the next round.

Clarification:

If a player has gotten rid of all their cards, they must keep saying "*Taco, Cat, Goat, etc...*" on their turn and be the **FIRST** player to slap their hand on the central pile when there is a match (or after a special card action) to win.

If they do not slap the central pile FIRST then a new round begins and they keep playing until they manage to slap the pile FIRST.

Flinching:

If any player slaps incorrectly or even starts to slap but jerks back, flinching, they forfeit the round and add the cards from the central pile to the bottom of their individual pile.

Pace:

Players must keep a steady rhythm and if a player forgets what they are meant to say or doesn't realize it's their turn, they must take all the cards

from the central pile and add them to the bottom of their individual pile.

No peeking!

Players must add cards to the central pile by quickly flipping them outward. If a player clearly peeks at their card before adding it to the pile, they forfeit the round and must take all the cards from the central pile and add them to the bottom of their individual pile.

Special cards:

As soon as a special card is flipped over, all players must carry out the following actions before slapping the central pile. If a player carries out the wrong action or is the last player to slap the pile, they must take all the cards from the central pile.

Gorilla: All players beat their chest.

Groundhog: All players knock on the table with both hands.

Narwhal: All players slap their hands above their head to form a horn.

End of the game

The winner is the **FIRST** player with no more cards in their individual pile who slaps the central pile **FIRST** when there is a match or after a special action card.
